Re: Osborn School District Bond

To Whom it May Concern,

The Grandview Neighborhood Association believes that providing a quality education to the children within our central Phoenix neighborhoods is a priority investment to make. Specifically, the Osborn School District. Grandview hosts the Osborn Middle School in our neighborhood and is grateful to collaborate with them and provide a safe environment for walking students. As a resident and Board member of our thriving Neighborhood, we ask for your continued support of OSD by voting YES for this bond. This will ensure students can maintain a small and effective class size, full day kindergarten and salaries that attract and retain quality teachers. These are a few reasons to support renewing the override without raising property taxes. Grandview fully supports the reauthorization of the Bond to continue the quality of education the community expects for the Osborn School District students.

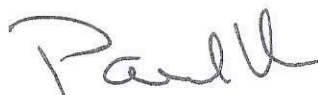

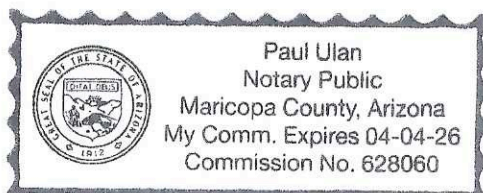

Sincerely,

Pam Pawlowski
