

Osborn is a beautiful community where kids and their families feel welcomed and supported. To continue to provide a high-quality education for all, we need our community's support to pass our bond. A YES vote means that our students can have the best learning technology, teachers can have updated curriculum materials and supplies, and our community has state-of-the-art facilities right in their neighborhood. Kids are the future and to be prepared for high school, college, career, and beyond we need to give them access to high-quality materials and spaces that will support their needs. Many of our students do not have access to these supports outside of school and so it is imperative that we provide them the tools that they need at school to help them thrive. A vote YES for the Osborn bond is a vote YES for kids!
