

PRO STATEMENT  
Osborn Elementary School District – Bond and DAA Override Elections

As a Governing Board member for Phoenix Union High School District, I know how critical it is to have community support for additional funding beyond what the state legislature provides. Our state has shortchanged our schools, fortunately the Osborn community has a history of supporting its schools. Now more than ever before, Osborn needs the support of their community again to renew its District Additional Assistance and approve a bond.

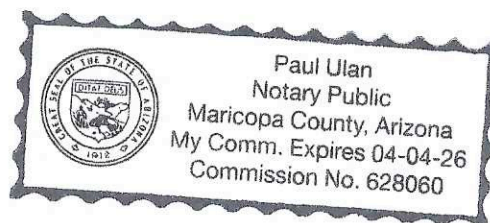

Osborn Elementary excels at educating their students. The District has been recognized nationally for its programs. Exceptional programs for language, high school preparation and workforce development.

Bond funds will be used to make improvements at each campus, increase student security and safety, renovate facilities and purchase new, energy efficient buses. DAA funds will be used to purchase curriculum materials and add technology to the classroom. Both ballot measures are critical for the future of the district.

I encourage you to vote YES for Osborn's bond election and YES to renewing the District Additional Assistance override. Thank you in advance for helping Osborn students continue on their path to educational excellence.

Stephanie Parra  
Governing Board Member, Phoenix Union High School District
